Chapter 534 in July...

Meeting - July 26th

Our July meeting served hamburgers and hotdogs to our members and their guest. Although a very hot day, the food was good. We had a guest speaker from the FFAST team; Mark L. Laughridge. The emphasis on the presentation was 5P Management Tool (checklist), which pilots are encouraged to use at initial flight planning, before takeoff, en-route, and descent. This will be posted on the "member's information" page on our website. There will also be a checklist on Comprehensive Airworthiness; both are quite informative and a good aid for risk management.

New/Old Business: No business meeting in July,

the next business meeting will be August 16th 9am. All members are welcome; meeting will be held in the EAA/CAP building Leesburg International Airport.

July 5th

FreeFlight Airport Pancake Breakfast & Chicken Dinner Charity Fly-In

Chapter 534 cooked the pancake breakfast, and helped to raise \$164 for donation to the SPCA! Some of the events were skydiving demos, vendors, chance drawings for airplane rides, tandem skydives.

July 12th

Orlando Apopka Airport

EAA Chapter 534 was invited to help serve breakfast at Orlando Apopka Airport member's meeting. Also served; sausage gravy and biscuits! We appreciate the donation given to our chapter for the breakfast. The hangars are really nice, and so are the members!

Looking for Personal Stories involving aviation...

If any of our members would like to share any aviation type experiences they've had through the years, we are interested in hearing them. I'm sure these would be educational, thrilling, enlightening and heartwarming. If your experiences are military, career, or personal, we would like to hear them.
