

## Executive Committee

January 2009

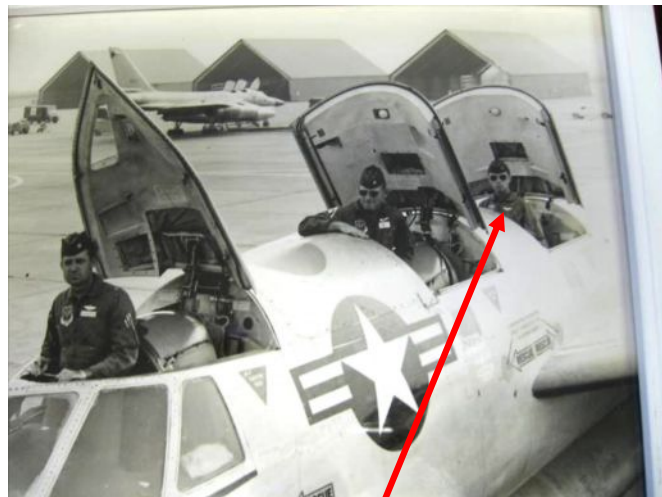

Meeting called to order at 9:05 a.m. by President Vaughn. Minutes to the 2 previous meetings read and approved.

**New magnetic name tags-** Bill Howard has checked with a company in Eustis. They have offered a deal where we can make our own logo and adding a members name would cost \$5.50. This would require an initial order of 25 to 30, each individual after that would be \$5.75.

The Supreme Court of Florida ruled that an adult cannot waive the liability for a minor riding in any motor vehicle. Chapter President Robert Vaughn wrote the National about this and the impact it may have with the Young Eagles. We have not gotten any word back from National headquarters at this time.

### JANUARY MEETING SPEAKER

Our Chapter members this month were privileged to have one of its own speak about his military experiences in the B-58 Hustler.

**Chapter member-Ed Chioski** (Check out this website on the B58 Hustler-) <http://b-58hustler.com/>

## MICROSOFT SIM PROGRAM

### Microsoft cuts Flight Sim team

By Mike Collins

"This difficult decision was made to align Microsoft's resources with our strategic priorities," the company said in a statement on the [Flight Sim Insider Web site](#). "We remain committed to the Flight Simulator franchise for the long term." Microsoft Flight Simulator X, the current version of the application with a history that spans more than 25 years will remain available at retailers and online. How Microsoft will support the franchise is not clear. The company says another unit, Microsoft Game Studios, is investing significant resources in many exciting and new areas of gaming and entertainment, including Windows games, Xbox 360, and online games. It's possible that Flight Simulator could move into one or more of those programs over time, said sources in the Flight Simulator community. Also not clear is the future of support for Microsoft ESP, a visual simulation platform based on Flight Simulator X that was intended to make the technology available for training and learning. Microsoft said that more information would be available later.
