President's Message

October is here! We are all anxious for cooler weather and see some old friends who have been away escaping the heat of summer.

Our September Fly-In was a huge success. Though I have not seen the revenue numbers yet, the event was very well attended. We had 33 airplanes fly in for the event and many locals and Chapter members attended.

We will start flying **Young Eagles again on the 19th this month** and I think Pilots and volunteers alike are anxious to see the kid's smiling faces.

Once again I will ask everyone to bring a friend to our meetings and events to help grow the Chapter. The year will be over before we know it. Let's make sure we make the most out of the time this year we have left.

Your humble President,
Joel

CHAPTER ACTIVITIES

10/19/19 – Young Eagles

10/26/19 – Monthly meeting - Bob Lincoln (developer) discusses ADS-B update

11/16/19 – Monthly meeting

11/23/19 – YE Scout troop (tentative)

December - Holiday break

01/11/20 - Mooney Lunch provided by the Chapter.

01/25/20 – Monthly meeting - Dave Harvey from Clearwater will speak about the Sun & Fun Flyout to the Bahamas.

02/29/20 - Back to Kimball's! Kevin will show his renewed Vega rebuild project.

03/28/20 - Bill Suchy: Film on the history of the WASPs of WWII. (Date is tentative.)

Famous Quotes:

"There are old pilots and bold pilots, but very few old and bold pilots!"

Written by an old/bold pilot from heaven

EAA Chapter 534 Meeting Minutes

No Sept meeting due to Pancake Breakfast!

Income from Breakfast \$505.00 + \$500 donation from an undisclosed member (per Mark Banus)

SAFETY CORNER:

During the last few years there have been too many instances of pilots either electing to take off mid-field creating a departure stall when out of runway with trees looming or having an engine problem and attempting a return to the field with a stall spin result.

The old pilot's adage applies here:

"Regret the runway behind you / gas still on the ground / the sky above you"

In a recent local classic departure stall the C170 took off mid-field at gross weight with a family of four on board and partial flaps. Sadly, whether the pilot was demonstrating a whoopie climb-out or panicked as he approached the trees, the speed of the plane (calculated by NTSB from video) was only about 40 mph at 150ft. above the ground when it stalled and crashed just short of the trees.

Textbook number for stall speed is 52 mph. (Vintage airspeed indicators are in mph)

As we learned many times in the FAAST team presentations "Fly to the scene of the crash"

CLASSIFIED ADS

Note from Newsletter Editor: There has been some interest in my posting Classifieds in the newsletter and I am happy to do so with the following guidelines:

- **Must be aviation related**
- Photo helpful
- Brief description
- Price
- Contact name/number/email
- Send to harpaq@hotmail.com
- **Let me know when sold**
